## Update 2: Morocco - COVID-19 Restrictions Tightened to Curb the Spread of Infections

4/16/2022, 10:11:16 AM

- Travelers arriving to Morocco by boat must present a negative polymerase chain reaction (PCR) test result or valid vaccination pass
- The Moroccan government will further relax the COVID-19 measures when the necessary conditions are met
- The current COVID-19 restrictions are a response to the development of the epidemiological situation in Morocco and abroad
- However, the government is working on relaxing the preventive measures, to boost economic recovery and ensure citizens' free movement
- The improvement of the epidemiological situation, as well as the consolidation of Morocco-Spain relations, led to the resumption of maritime travel between the two countries on April 12, 2022
- **Reported COVID-19 stats for Morocco:**
  1. Confirmed Cases: 1,164,296
  2. Deaths: 16,062 (1.38%)
  3. Recoveries: 1,147,579 (98.56%)
  4. Vaccine Doses Administered: 54,362,452
  5. Fully Vaccinated: 23,369,950 (65.2%)
- Supply Wisdom will continue to monitor the situation and will alert you to any relevant developments

## Impact Level Definitions

Impact Level	Definition
Critical	<b>Anticipated disruption intensity is critical, and occurrence is imminent</b> - Supply Wisdom recommends considering immediate review and action.
High	<b>Anticipated disruption intensity is high and/or disruption is likely to occur within 3 months</b> - Supply Wisdom recommends being in a heightened state of readiness to take quick action and confirm response plans/protocols.
Moderate	<b>Anticipated disruption intensity is moderate and/or likely to occur within 3 to 6 months</b> - Supply Wisdom recommends reviewing current mitigation steps and being prepared to take proactive action if and when situation deteriorates further.
Low	<b>Anticipated disruption intensity is low and/or may occur after 6 months</b> - Supply Wisdom recommends taking proactive action if situation does not resolve in approved timeframe.
Informational	The event is pertinent information but does not have a current risk element associated with it.
