## Impact Level Definitions

Impact Level	Definition
Critical	<b>Anticipated disruption intensity is critical, and occurrence is imminent</b> - Supply Wisdom recommends considering immediate review and action.
High	<b>Anticipated disruption intensity is high and/or disruption is likely to occur within 3 months</b> - Supply Wisdom recommends being in a heightened state of readiness to take quick action and confirm response plans/protocols.
Moderate	<b>Anticipated disruption intensity is moderate and/or likely to occur within 3 to 6 months</b> - Supply Wisdom recommends reviewing current mitigation steps and being prepared to take proactive action if and when situation deteriorates further.
Low	<b>Anticipated disruption intensity is low and/or may occur after 6 months</b> - Supply Wisdom recommends taking proactive action if situation does not resolve in approved timeframe.
Informational	The event is pertinent information but does not have a current risk element associated with it.
