Update 132: Macau, China - COVID-19 Restrictions Imposed Due to Surge in Cases

6/26/2022, 9:45:41 AM

- Several residential buildings in Macau city have been sealed to contain the increasing number of COVID-19 cases
- Restrictions on closing of pubs, theaters, hair salons, as well as outdoor parks are also extended
- More than 5,000 people in the city are in quarantine
- For the second time in past seven days, Macau is testing its more than 600,000 residents for COVID-19 infections
- On June 24, 2022, the city reported 39 new COVID-19 cases, bringing the total tally to 149
- It was reported that China-manufactured vaccines have turned out ineffective, making already-vaccinated people prone to new infections
- China has warned a severe COVID-19 outbreak due to rising number of infections, and crippling normal life
- Deteriorating situation in China has negatively impacted global companies as well as local businesses in the country
- COVID-19 lockdowns in capital Beijing caused food shortage and loss of jobs among residents
- **Reported COVID-19 stats for China:**
 1. Confirmed Cases: 225,526
 2. Deaths: 5,226 (2.32%)
 3. Recoveries: 219,714 (97.42%)
 4. Vaccine Doses Administered: 3,397,224,000
 5. Fully Vaccinated: 1,259,184,000 (89.8%)
- Supply Wisdom will continue to monitor and issue alerts for any relevant developments

Impact Level Definitions

Impact Level	Definition
Critical	Anticipated disruption intensity is critical, and occurrence is imminent - Supply Wisdom recommends considering immediate review and action.
High	Anticipated disruption intensity is high and/or disruption is likely to occur within 3 months - Supply Wisdom recommends being in a heightened state of readiness to take quick action and confirm response plans/protocols.
Moderate	Anticipated disruption intensity is moderate and/or likely to occur within 3 to 6 months - Supply Wisdom recommends reviewing current mitigation steps and being prepared to take proactive action if and when situation deteriorates further.
Low	Anticipated disruption intensity is low and/or may occur after 6 months - Supply Wisdom recommends taking proactive action if situation does not resolve in approved timeframe.
Informational	The event is pertinent information but does not have a current risk element associated with it.
