Update 194: Ukraine - Multiple Missile Strikes Witnessed - 10 Deaths Reported and Several Injured

5/17/2022, 12:45:58 PM

- The western Ukrainian city of Lviv has been hit by number of very loud explosions
- Witnesses counted at least eight explosions accompanied by distant booms
- The city is currently under curfew from 11 pm (EET) to 6 am (EET)
- Russians had fired on military infrastructure in the Yavoriv district
- The city of Yavoriv is about 15 kilometers (less than 10 miles) from the Polish border
- Additionally, Russian troops are continuously shelling Severodonetsk
- At least ten people were killed in the latest shelling in Severodonetsk in the east of Ukraine, as the city is almost surrounded by Russian troops
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments

Invasion

GUIDANCE

Actions to Consider

- Ukraine is a country in eastern Europe. Its capital and largest city is Kyiv. The economy of Ukraine mainly relies on manufacturing and agriculture. Be prepared for possible disruptions to businesses in the region due to the reported incident
- Exit from Ukraine immediately; and follow the advice of the Ukrainian authorities to do so
- Ensure that travel documents are updated in the events of immediate exit
- Stay indoors, and away from windows, remain alert to developments
- Travelers are advised to avoid all travel to the affected regions and pay close attention to advisories issued by the local and international authorities
- Evaluate internal controls and processes to assess the risks and determine if increasing geo-political tensions could impact business operations
- Pay close attention to any change in government policies and business environment amid military tensions
- Remain vigilant for a decline in service levels or quality

amid the current economic fallout, and build contingencies to address such scenarios

- Determine strategies to make operations more resilient by diversifying markets and developing alternative sources of supply
- Ensure that Business Continuity plans, and programs are commensurate with the level and types of risk exposures of this location
- Security and travel departments of third parties/captive units should consider issuing internal alerts and travel restrictions as appropriate
- Ensure procedures for protecting infrastructure and evacuating employees to safe locations are in place if required

Impact Level Definitions

Impact Level	Definition
Critical	Anticipated disruption intensity is critical, and occurrence is imminent - Supply Wisdom recommends considering immediate review and action.
High	Anticipated disruption intensity is high and/or disruption is likely to occur within 3 months - Supply Wisdom recommends being in a heightened state of readiness to take quick action and confirm response plans/protocols.
Moderate	Anticipated disruption intensity is moderate and/or likely to occur within 3 to 6 months - Supply Wisdom recommends reviewing current mitigation steps and being prepared to take proactive action if and when situation deteriorates further.
Low	Anticipated disruption intensity is low and/or may occur after 6 months - Supply Wisdom recommends taking proactive action if situation does not resolve in approved timeframe.
Informational	The event is pertinent information but does not have a current risk element associated with it.
