GUIDANCE

Actions to Consider

- Be prepared for possible disruptions to businesses due to the reported incident
- Determine if third parties or captive units have in-house health professionals to detect sickness and quarantine suspected disease carriers spotted within the business premises if any
- Consider implementing suggested government and company-approved actions related to the current COVID-19 situation. The latest updated information is available at <https://covid19.gov.lv/en/support-society/how-behave-safely/covid-19-control-measures>

Impact Level Definitions

Impact Level	Definition
Critical	Anticipated disruption intensity is critical, and occurrence is imminent - Supply Wisdom recommends considering immediate review and action.
High	Anticipated disruption intensity is high and/or disruption is likely to occur within 3 months - Supply Wisdom recommends being in a heightened state of readiness to take quick action and confirm response plans/protocols.
Moderate	Anticipated disruption intensity is moderate and/or likely to occur within 3 to 6 months - Supply Wisdom recommends reviewing current mitigation steps and being prepared to take proactive action if and when situation deteriorates further.
Low	Anticipated disruption intensity is low and/or may occur after 6 months - Supply Wisdom recommends taking proactive action if situation does not resolve in approved timeframe.
Informational	The event is pertinent information but does not have a current risk element associated with it.
